The Story of Barton Key and Mrs

firred with him, and promised to marry him on Wednesday. Mr. Brown called an hour before the time set for the ceremony, and she told him she had reconsidered here last decision, and would marry Mr. Bradford. Thereupon Mr. Brows hade her good-bye, and went back to St. Lonis. On Thursday she was married to Mr. Bradford; but before a light of many fashionable breaking of the engagement with Mr. Brows, took her to her parents, and started for California, declaring that he would mover see her again. Mise Mountojor is a disconstruite that her father watches constantly to prevent smided.—[Brown Co. (Illa.) Democrat.

A writer in a California newspaper says: About half a mile over a mountain from Bartlett Springs there is what is called the Gas Spring. This is probably the greatiest of the mountains. The water is ice cold, but bubbing and foaming as if it tooled, and the greated was was a bandsome follow, and was a bandsome follow, and was a bandsome follow, and was considered to the curiosity of the mountains.

The stably spaine.

A writer in a California newsperse was a course of the main and the course of the mountains. The water is ice cold, but bubbing and foaming as if it tooled, and the greated wond within a circunt of one burney course of the produced by inhabing the greatest wonder it the inevitable destructions of life produced by inhabing the greatest wonder is the inevitable destructions of life produced by inhabing dead of the spring. The very life, are keep to the course of the produced by inhabing and foaming as if it tooled, and the greatest wonder is the inevitable destruction of life produced by inhabing and foaming as if it tooled, and the greatest wonder is the inevitable destruction of life produced by inhabing and foaming as if it tooled, and the greatest wonder is the inevitable destruction of life produced by inhabing and foaming as if it tooled, and the greatest wonder is the inevitable destruction of life produced by inhabing the greatest wonder is the inevitable destruction of life produced b

rect to care to introduce him isto. Springs. This is probably the greatest curiosity of the mountains.

The water is ice cold, but bubbling and foaming as iff to brief, and the greatest wonder is the inevitable destruction of life produced by inhaing the gas. No living thing is to be struction of life produced by inhaing the gas. No living thing is to be first, and unfathomable doubt the gas. No living thing is to be first, if they happen to fly over it, drop dead.

We experimented with a lisard on its destructive properties by holding it a few feet above the water. It structed dead in two minutes, when a dell, heavy aching it will kill a human being in twenty minute. We stood over it about five minute, when a dell, heavy aching sensation crept over us, and our gyes began to swim. The gas which escapes here is of the rankest kind of carbonic, honce its sure destruction of flig, also of quenching of flames instancedly.
